

Winter Storm Jonas

Keep your Data Safe!

HRCT and StorageCraft want to make sure you and your data stay safe during Winter Storm Jonas.

Telephone: (757) 399-3350

Toll Free: (800) 319-1878

There are things you can do to keep your data safe and your business running during a disaster.

- Set up backup systems.
- Help protect your data.
- Keep your communications up and running.
- Set up remote access to your systems and data.
- Help establish a telephone system and procedure that keeps communications open with employees and customers.

HRCT can help you protect your data:

Did you know that a large percentage of small businesses that close due to severe weather damage do not reopen?

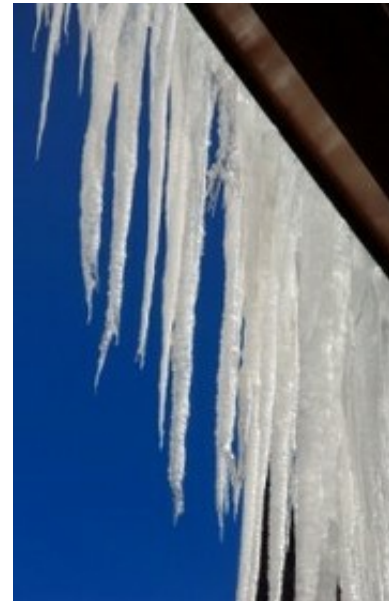

- [Click here to find out how HRCT can play a vital role in your recovery plan.](#)

For future storms, find out more about HRCT's Managed Services. We can help keep your data safe from disaster and continually monitor your systems.

HRCT uses StorageCraft products for backup and disaster recovery!

"The StorageCraft Recovery Environment is an integral part of our backup and disaster recovery software and will help you restore entire systems, perform bare metal recovery, and migrate your backups to entirely new systems."
