#### Your Capital Budget and Section 179 of the IRS Tax Code

**What is a Capital Budget?** This budget is for large purchases such as new equipment, vehicles, construction, building, ect. These purchases are made for a significant amount of money.

**Section 179 of the IRS tax code:** This code, "allows businesses to deduct the full purchase price of qualifying equipment and/or software purchased or financed during the tax year. That means that if you buy (or lease) a piece of qualifying equipment, you can deduct the FULL PURCHASE PRICE from your gross income. It's an incentive created by the U.S. government to encourage businesses to buy equipment and invest in themselves."
